

Vaping Trends

There wasn't much change since last school year.

Presence of THC cartridges have increased.

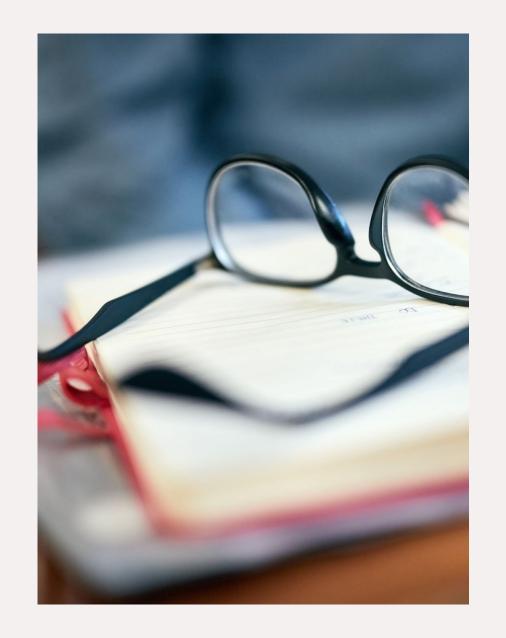

Whether the Vape shops are busted for underage selling or selling illegal products, it doesn't stop them.

The amount of students smoking/vaping in school has increased some this school year.

Relationship between the School and the Students

THE SAME STUDENTS ARE
REOFFENDING AND DON'T SEEM
TO CARE ABOUT GETTING IN
TROUBLE.

WHEN THE STUDENTS ARE SPOKEN WITH, THEY AREN'T MAD ABOUT THEIR PARENTS BEING CONTACTED. THEY ARE MAD ABOUT MISSING SCHOOL.

More than just Vaping

Throughout the school year we have had an increase in actual marijuana being brought to the school and being smoked while school is in session.

During the current school year, I received multiple complaints about marijuana during gym class or in the gym bathrooms.

There were 3 incidents this school year where I confiscated marijuana from students.

We didn't have a raise in alcohol usage in the schools. The only issue we had was during homecoming.

Who, What, Where, When, and Why?

Who? What? These are the usual • The same students that are • Vape Brands: Elf Bar, Lost being caught. Peer Pressure is Mary. If they are THC vapes: wants answers too when it still a factor. Delta 8, Delta 9 or it will say comes to incidents that THC involve their children. Where? When? Why? • In the bathrooms. In the • During lunch when they know

that certain areas aren't

their family does it
